The Master of Arts in Teaching with Technology (MAT) program is for those interested in the field of educational technology, or EdTech. The MAT program offers education degrees and licenses in programs that include special needs, reading, the arts, TESOL, and technology. Enrolling as a graduate student at UMaine, in order to earn my Master’s degree in Instructional Technology, was a perfect fit to meet not only my professional goals but also personal aspirations. This degree equips graduates with the skills to develop and implement technological tools in the classroom and prepares them to serve as technology leaders.

The Master of Education Degree (M. Ed.) with a concentration in Educational Technology serves students who work in, or who intend to work in, educational technology roles. The program offers two tracks: one with an emphasis on instructional design and development in professional education and another focused on educational technology and its applications in various educational settings. Whether you’re looking to enhance your teaching skills or explore new career paths in educational technology, the M.Ed. in Educational Technology provides a comprehensive foundation in the field.

Other master’s in education programs include instructional technology and distance education, speech-language pathology and medical education. Whether you’re seeking to deepen your knowledge in a specific area or broaden your expertise across multiple disciplines, Lesley’s Graduate School of Education offers a diverse range of programs to support your educational and professional goals.
